Name: Espion

First name: Bernard

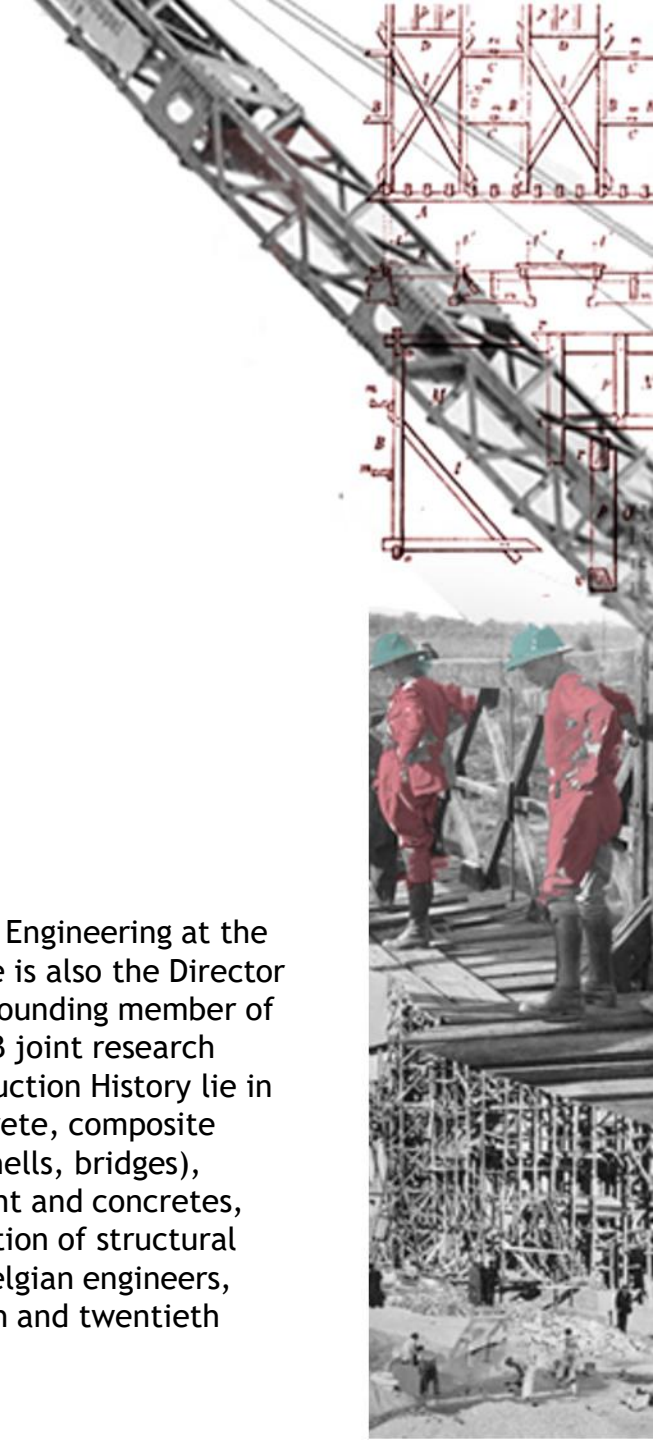

Function: Professor

Affiliation: Université Libre de Bruxelles

Country: Belgium

Email: bernard.espion@ulb.ac.be

CV: Bernard Espion is Professor of Structural Engineering at the Université Libre de Bruxelles (ULB) where he is also the Director of the Civil Engineering Laboratory. He is a founding member of Construction Histories Brussels, the ULB-VUB joint research group. His main research interests in Construction History lie in structures (reinforced and prestressed concrete, composite steel-concrete, cable roofs, thin concrete shells, bridges), materials and construction processes (cement and concretes, iron and steel, connexions), historical evolution of structural theory and design concepts, especially by Belgian engineers, contractors and companies in the nineteenth and twentieth
