

7ICCH

Seventh International Congress on Construction History

Name: Wouters

First name: Ine

Function: Professor

Affiliation: Vrije Universiteit Brussel, Department of Architectural Engineering

Country: Belgium

Email: ine.wouters@vub.be

CV: Ine Wouters has a MaSc in Architectural Engineering (1996) and a PhD in Engineering (2002). She is head of the department at VUB Architectural Engineering and studies the evolution of nineteenth and twentieth century construction materials and techniques. Next to archive and literature study, the buildings and structures itself are an important object in her research.
